

WATER CONSERVATION Shower Timer

Conserve water and save money

Beat the clock and save!

A shower timer helps you track how long you shower. Every time the sand runs out and you have to flip it over, another five minutes has passed. This helpful reminder encourages you to save energy and water by taking shorter showers.

WATER CONSERVATION Shower Timer

This shower timer helps and encourages to achieve more efficient showering. Save water and money by making better habits with this simple and effective tool.
